

PREFACE TO THE NEBRASKA BASIC CODE

The Nebraska Basic Code

This League of Nebraska Municipalities/American Legal Publishing (LNM/ALP) Nebraska Basic Code (NBC) is an effort to provide a modern and comprehensive code of ordinances for smaller Nebraska municipalities without the expense of a customized code of ordinances. Its provisions are also useful to all Nebraska municipalities that wish to have models for the basic municipal ordinances on the subjects contained in the code.

The NBC will be supplemented annually to reflect legislative enactments. The supplements will consist of new pages which will replace the pages contained in this edition. In addition, the supplements will contain new model ordinances that will be included in the NBC unless the municipality decides not to incorporate them into their code.

Authors and Editors

This Nebraska Basic Code is partly based on model ordinances drafted over the last several decades by various attorneys and staff at the League of Nebraska Municipalities, as updated to reflect current state law. It was prepared under the supervision of the Hon. Gary Krumland, Assistant Director and Legal Counsel, League of Nebraska Municipalities. The editorial review and formatting of the NBC was done by the staff of American Legal Publishing Corporation.

Availability of the Code

In addition to this printed version of the NBC, the NBC is available on computer disk in a word processing format or in Folio VIEWS search and retrieval format. For ordering information, contact the publisher, American Legal Publishing Corporation, at 1-800-445-5588 or email Customerservice@amlegal.com.

We hope the Nebraska Basic Code will serve the needs of Nebraska municipalities for many years.
